
Institutional Prospective Plan

- **Qualitative and Quantitative Growth:**

We are committed to attain qualitative as well as quantitative growth of our institution by way of the following measures:

- A) Increase in the student enrolment
- B) Induction of new courses imparting skill development, vocational training and entrepreneurship building
- C) Provision of Post Graduate education in all Arts and Science Disciplines
- D) Facility to pursue research through establishment of more Research Centres

- **Strengthening and Expansion of Existing Infrastructure:**

We envisage significant strengthening, expansion and enhancement of existing infrastructure as well as Student Support Services in the years to come. For this, the institution plans to seek help of government funding agencies such as UGC, University and RUSA along with alumni and well-wishers. At the same time, we plan upgrading of teaching-learning methods synchronised with technology to ensure better understanding and lively learning experience.

- **Rise and Improvement in Research Output:**

We aim at increasing and improving research-oriented activities on the campus through carrying out Research Projects, obtaining doctoral degree by every teacher, filing patents under Intellectual Property Right, publishing scholarly articles and research papers, organising conferences/ workshops/ seminars, etc. Simultaneously we endeavour to strive consistently towards creative, ethical and social development of our students.

- **Systematic Digitization of Administration:**

We plan to have systematic digitization of all administrative procedures in near future.
